

MESTIZO-CURTIS POOL RECONSTRUCTION

PROJECT BACKGROUND

Mestizo-Curtis Pool is a popular outdoor aquatic facility located in Denver’s oldest park, providing access to swimming and recreation for thousands in a high-need neighborhood in the heart of the city. The pool is past the end of its useful life and requires a replacement to ensure it can continue to serve the community for years to come. This project will provide a new facility that includes a lap pool, leisure pool/play features, a bathhouse and restroom building.

PROJECT INFORMATION

Location: 3181 Champa St.

District: 9

Neighborhood: Five Points

RISE Denver Funded Amount: \$6.05 million

Designer: TBD

Contractor: TBD

ECONOMIC BENEFITS

Approximately 161 jobs (created and continued)

\$10.1 million in wages to workers
