

UNIVERSITY HILLS PARK CONSTRUCTION

PROJECT BACKGROUND

In the City’s quest to ensure all Denver residents are within a 10-minute walk or roll of a quality park, the University Hills neighborhood was identified as lacking in nearby park facilities. This project will support design and construction of a park in this neighborhood, ensuring equity in park access for southeast Denver.

PROJECT INFORMATION

Location: E. Iliff Avenue and S. Bellaire Street.

District: 4

Neighborhood: University Hills

RISE Denver Funded Amount: \$5.5 million

Designer: TBD

Contractor: TBD

ECONOMIC BENEFITS

Approximately 75 jobs (created and continued)

\$5 million in wages to workers

\$11 million in economic output (sales activity to businesses)

PROJECT BENEFITS

Increased park access for southeast Denver

Supports healthy lifestyles by providing residents with opportunities to engage in exercise and social activities

Improves environmental health by incorporating pollinator gardens and other natural areas into the design
