

Office of the City Forester Demolition/Construction Information Form

The following information is required by the Office of the City Forester in order to process a residential demolition/new construction inspection request. Failure to completely and accurately provide the information will result in the form being returned and delay the permit process. The Office of the City Forester will be monitoring the project from the demolition phase through Certificate of Occupancy issuance to ensure proper tree protection is maintained. Please remember that all tree work on the property must be performed by a licensed tree service contractor. To view a list of currently licensed tree service contractors visit www.denvergov.org/forestry.

Please email the completed form to ForestryResDev@denvergov.org. Inspections will be completed by the end of the fifth full business day after receipt of the request.
