*As with all design and construction projects schedule indicated above is an estimate only. Many factors can cause delays in the delivery of the project, and schedules are subject to change.

Brief project description

The project will replace the pedestrian bridge along the High Line Canal at Holly and Eastman. The bridge replacement will coordinate with the stormwater quality project currently under construction in the Canal from Hampden Ave to I-25 through Wellshire Golf Course. The bridge is funded from the DPR Legacy Fund/CIP.

Bridge replacement in the dotted circle along the High Line Canal highlighted in red.
