*As with all design and construction projects schedule indicated above is an estimate only. Many factors can cause delays in the delivery of the project, and schedules are subject to change.

Brief project description

This project involves the construction of a new educational learning center at the newly developed Montbello Open Space. The building will be approximately 5000 sf and feature classrooms, office and support spaces. Sitework is also part of the project including a parking lot, landscaping and outdoor classroom space.
