

Legend

Rep to DOTI

Business Council Head

Core Infrastructure

Propels all core vertical and horizontal infrastructure planning, design, engineering and construction implementation services. Focused on dynamic, responsive citywide program delivery and implementation for citywide agency partners as well as providing safe, reliable bridge, storm, sanitary, green infrastructure and special project delivery for the citizens of the City and County of Denver.

Transportation

Drives the vision, delivery, stewardship and operations of Denver's safe streets and connected sustainable mobility options. Focused on dynamic, responsive citywide program delivery including transportation planning, design, engineering, utilization and management of the right of way, providing equitable access and opportunity for the people who need it most.

Strategy Services

Provides strategic direction and oversight for DOTI's corporate business functions including operations, budget and human resources, policy, community outreach, revenue and fiscal policy, and performance with the intention of supporting a sustainable, high-performing and equitable agency who delivers on the vision of the city.

Public Works

Operates, manages and controls all public utilities belonging to the City and County (except the water works system and plant) and of all facilities owned by the City and County for sewage, trash, garbage for a cleaner and greener Denver.
