

Dear Xcel Energy Customer,

On behalf of Xcel Energy, SiteWise will be performing soft surface restoration at your residence in the Spring of 2025.

Please read the details below so you will be prepared and know what will occur during construction.

We plan to start the soft surface restoration in May of 2025, and anticipate completing all work in the neighborhood by May 30th. However, inclement weather and other circumstances may cause delays. Generally, we will work from 8 am to 5 pm, Monday through Friday. We may also work on weekends.

Landscaping will be restored to its pre-construction state. You will be notified prior to work taking place at your residence.

As a Sitewise representative, one of my colleagues or I can be reached 24 hours a day, seven days a week at 720.417.3827. Please call me to discuss any concerns or to ask any questions you may have about this project. You may also call Xcel Energy at 1-800-895-4999.

For more information about this work and to see a listing of the projects in your area, visit the “Residential Natural Gas Service Replacement Program” page located at www.xcelenergy.com/ProjectsNearYou or email infocolorado@xcelenergy.com.

Please use Reference ID # 109954732 (Colorado and Batavia) to identify this project when contacting me or Xcel Energy.

We appreciate your cooperation and patience.

Sincerely,

Aaron Hinojosa
Sitewise Restoration Supervisor
