

# Minor Public Sanitary/Storm Improvement

**Application for permission to design, plan, construct, reconstruct or remodel a Public Improvement**

Submit the completed form via: [E-Permits](#)

\*Include the Sewer Use and Drainage number associated with the project.  
 \*Fill in the information boxes and save as a PDF file.

I hereby make application to perform the public improvement work (specify public improvement) \_\_\_\_\_,  
 and as described in Sewer Use & Drainage Permit Application No. \_\_\_\_\_.

I agree that all costs incident to this work shall be borne by me, including engineering services rendered by the City. All construction inspection and materials testing shall be performed by the City and billed to me at rates established by the Manager of the Department of Transportation and Infrastructure (DOTI).

I agree to complete this project (including the provision of providing acceptable “As-Built” drawings) within a period of one year from the date of approval by the City and prior to validation of a Certificate of Occupancy for any building site this public improvement serves. I agree that, should I fail to complete the project to the satisfaction of DOTI Development Engineering Services, DOTI shall have the right to take any and all such legal measures as may be necessary, in order to have the work completed, at my expense, by the City and County of Denver or their emergency contractor, including the provision of providing acceptable “As-Built” drawings, to the satisfaction of the Department of Transportation and Infrastructure.

I further agree to guarantee the work for a period of two (2) years, after completion of the work and approval and acceptance by the City. I agree to the conditions under which this permission may be granted as defined in the DRMC and Rules and Regulations and agree to provide acceptable “As-Built” drawings of the work prior to acceptance by the City or commencement of the guarantee period.

I agree that, should the permitted construction activity result in a real or imminent sewer line stoppage or hazard which harms or threatens to harm the health or safety of the citizenry, the Department of Transportation and Infrastructure shall take any and all such actions to relieve the stoppage and I will pay the cost of any such action. I further understand that, should I disagree with any such action, I may appeal the matter as allowed by DRMC 56-106.
