

DPS Recycling: Cart Set-Out Guidelines

Please help us serve you more efficiently by following our recycling set-out guidelines:

- **Have carts out by 7AM on your designated recycling collection days.**
- Carts can be set out as early as the night before collection, and must be brought back in no later than the day after collection.
- *Collection can occur at any time between 7am and 5pm on your collection days.*
- **Give us 2 feet of space between each cart on your designated recycling collection days.**
- Carts should be set out in a straight line, with **two feet** of space between each cart.
- **Keep area around carts clear on your designated recycling collection days.** Don't let anyone block access to your carts between 7am and 5pm on recycling collection days.
- **Flatten all cardboard and place *inside* the carts or stack it under the lid (see example, below).**
- **Remember: NO plastic bags.** Plastic bags (including plastic liners) are NOT accepted in purple carts.
- **Always keep cart lids closed.** We don't want rain and snow in the carts!
